

IndexInterface

```
classDiagram
    class IndexInterface
    class AVLTreeIndex
    class hashy
    AVLTreeIndex --|> IndexInterface
    hashy --|> IndexInterface
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'IndexInterface'. Below it, a horizontal line connects two boxes: 'AVLTreeIndex' on the left and 'hashy' on the right. From the center of this horizontal line, an arrow points upwards to the bottom edge of the 'IndexInterface' box, indicating that both 'AVLTreeIndex' and 'hashy' inherit from 'IndexInterface'.
